

# CONTRIBUTE TO CHANGE

Since March 1989, Human Rights in China (HRIC) has been **highlighting the cases of rights defenders** and **promoting legal reform** in the largest country on Earth. We raise the causes of defense lawyers, journalists, and ordinary citizens addressing endemic corruption, environmental pollution and degradation, freedom of expression, and other serious human rights challenges.

Human Rights in China sends the message that China's rights defenders and activists are not alone. We broadcast their stories and help mobilize governments, UN agencies, and other international actors including corporations and the media to press for legal reform as well as redress for individual human rights violations.

**Join us in working for an open China that respects human rights at home and abroad.**
